## ORANGE COMMUNITY EDUCATION & RECREATION: BUILDING COMMUNITY ONE ACTIVITY AT A TIME

# RECREATION RENEWAL LEVY

The communities that make up the Orange School District are vibrant and engaging places to live, work, shop and play. Orange Community Education & Recreation is happy to play an integral part in this environment and grateful for the support and relationships we maintain in the community.

The Orange City School District Board of Education adopted a resolution at our November 4, 2019 regular meeting declaring it necessary to renew an existing 0.95-mill tax levy for the purpose of operating and maintaining Orange Community Education and Recreation (OCER) programming and facilities, for five years. On March 17, 2020, voters in the Orange School District will therefore have the opportunity to renew the department's current .95 mil, 5-year renewable community education and recreation levy, due to expire on December 31, 2020. This levy does not raise taxes, and will cost homeowners about \$28 per \$100,000 in home value, per year.

This levy, first passed in 1975 and every 5 years since then, is designed to provide approximately 25% of the funds needed to operate Orange Community Education & Recreation and provide its many programs and services to our community. The department has successfully operated on the same .95 mil renewable levy funding, with no increases, since 1995! All other operating funds are derived from user participation fees, grants and donations.

As one of the most comprehensive community education and recreation programs in Ohio, our professional staff works in tandem with residents, the school district and community in developing programs and activities that serve the whole community. From aquatics, fine art, sports and theatre to preschool, health and wellness, learning opportunities and more, Orange Community Education & Recreation serves preschoolers, youth and teens, adults and senior adults. We are truly dedicated to building community one activity at a time.

We look forward to sharing more information with you in the coming months.

# ADAPTIVE RECREATION

Orange Community Education & Recreation promotes inclusion across all facilities, programs and classes that we offer. We welcome people of all ages and abilities to participate in our programs. Our goal is to ensure that all individuals have equitable access to the benefits of high-quality educational and recreational programs that foster social, emotional, physical and cognitive growth. We aim to make our programs as inclusive as possible, but we also offer a variety of adaptive programs to meet your child's needs as well.

Our seasoned, dedicated staff are trained in working with children of all abilities. We seek and employ instructors that are highly skilled in their area of expertise, have extensive experience working with children and demonstrate the ability to embrace the inclusive nature of our organization. We also look for volunteers that can offer specialized support for all students in our programs.

## Participant Accommodation Plan

For those parents that would find it helpful, Orange Community Education & Recreation offers participants with special needs the opportunity to meet one-on-one (prior to participating in a program) to create an individualized Participant Accommodation Plan. The plan is not required to participate in any of our programs, however, it can help us identify what programs make a good fit and how we can help support the participant. During this one-on-one meeting, you can tell us all about your child and we can work together to create a plan for success.

To learn more about our adaptive programming or to discuss how we can support your child's needs, please contact Kelly Borders, M.Ed. at 216-831-8601 x5423 or kborders@orangecsd.org.
