In one week you can earn 1 to 3 graduate credit hours, at incredible low price, and in an authentic setting, applying the newest of evidenced based practices, under the supervision of experts in the field.

Learn in an Authentic learning environment. This incredible experience provides you with a team of experienced experts from several professional backgrounds to follow and learn from.

You will be provided state of the art practices and interventions.

Experience direct hands-on evidenced-based practices and intervention strategies dealing with children identified with autism. This is a hands-on course, where you will be working in an authentic setting, working directly with professional experts, dealing with individual and small groups of children identified with Autism Spectrum Disorder. Your experience will include middle school and high school grade teens

You will come away with higher level of knowledge, experience, and insight as to what to do, and how to better provide for children and teens identified ASD.

Who should attend:

Teachers, Program directors, Mental Health professionals, Speech Therapists, Clinical Counselors, School Counselors, and School Psychologists .

What

This 1 week course will provide training and supervision to counselors, mental health providers, special education teachers, and speech language therapist the opportunity to learn and apply therapeutic strategies and interventions with groups of young children and teens.

When: Three weeks to choose from. (Select the week that fits your needs)

Earn 1 to 3 graduate credits per week long course (or a combination of credit and CEU's)
